EXPOSURE MOSAICS

THE NATURAL FLOW OF DESIGN AND IMAGINATION

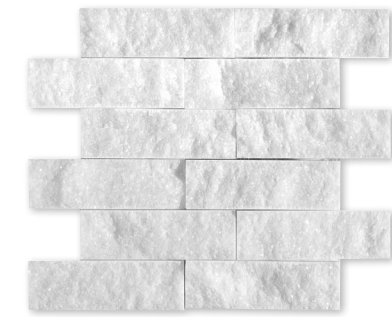

The Exposure Collection is a design and artistic accomplishment in natural stone. Texture, size and surface dimension are created through the art of mosaics. The collection is designed for use as a wall covering that can be used both on interior and exterior surfaces. Use it as an accent or complete covering for walls and vertical surfaces. A feeling of permanence and strength exudes from this exceptional design and stone selection.

SLIDES MOSAICS

PROPHETIC DISTINCTION...VISIONARY RESULTS.

We are proud to introduce the Slides Mosaics, a modern take on one of the world's oldest and artistic practices. Mosaics were often chosen as an alternative to painted frescos in the most historic structures. With the Slides Mosaic Collection, clean lines blend seamlessly with deconstructed design, adding a blend of old-world flavor with contemporary extravagance to your space..

A NEW WORLD... A NEW STYLE.

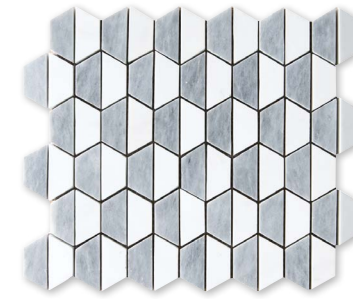

As manufacturers and designers all over the world search for ways to help the environment, designing a space with an eco-friendly theme has never been easier. We are proud to introduce The Green Products, an eco-friendly line devoted to modern conservation and stylish responsibility. Rather than destroying remaining bits of natural stone from cut tiles, The Green Collection boasts carefully recovered pieces that are creatively used in new designs, making each piece unique and distinctive.

ABOUT YOUR NATURAL STONE

Natural Stone beauty is the result of inherent and unique characteristics of color, shade, texture and veining. To appreciate your selection:

- Always view stone as a family/ range of color that can vary within a tile or from tile to tile.
- Blending / mixing the tiles and laying them out prior to installation is recommended.
- The natural stone coloration can be natural or may be enhanced by applying a stone enhancer. To simulate the effect, wet the stone surface with water. Note: Enhancing must be done before sealing the stone.
- To avoid staining, the stone should be minimally sealed with a stone sealer.
- Consult your sales associate, contractor or our Web site for additional information on the products.

At Marble Systems, our signature natural stone tile represents the center of what we do as a brand, a company, and most importantly, it represents an extension of your vision. We aim to unite convenience with unprecedented design. We select the most artistic and innovative products to invigorate truly unique spaces.

Our newest collections offer the best of what we have discovered over the years. Polished and honed, refined and tested, our lines feature the highest quality marble, limestone, travertine, granite, slate and onyx.

Your mission is to imagine the endless possibilities for your space. Ours is to inspire you to get there.
