Product Featured: YNR10037 Rumi Mosaic

Arabesque, intertwining, lacework in stone and marble. Fluid geometry defines the Talya Collection from Sara Baldwin Design exclusively for Marble Systems. Influenced by the extraordinary material culture and decorative artistic achievements of the Ottoman Empire, “Talya” references centuries-old traditional motifs while also feeling completely current.

Sara Baldwin’s signature style has gained international attention. For over twenty years, Sara and her prolific team in Virginia have created trends in stone and glass surfaces and flooring. The Talya Collection was inspired by their travels to Turkey and the Middle East, and we sincerely hope that Talya will serve as a metaphor for cultural bridges of all kinds.
